## Sectoral Deployment of Bank Credit – February 2026

Data on sectoral deployment of bank credit for the month of February 2026, collected from 41 select scheduled commercial banks (SCBs) which together account for about 95 per cent of the total non-food credit by all SCBs<sup>1</sup>, are set out in [Statements I and II](#).

On a year-on-year (y-o-y) basis, non-food bank credit<sup>2</sup> grew by 14.3 per cent as on the fortnight ended February 28, 2026, compared to 11.1 per cent during the corresponding fortnight of the previous year (*i.e.*, March 07, 2025).

**Highlights of the sectoral deployment of bank credit as on the fortnight ended February 28, 2026 are given below:**

- Credit to agriculture and allied activities registered a y-o-y growth of 12.3 per cent *vis-à-vis* 11.4 per cent in the corresponding fortnight of the previous year.
- Credit to industry recorded a y-o-y growth of 13.5 per cent, compared with 7.5 per cent in the corresponding fortnight of last year. Credit to 'Micro and Small' and 'Medium' industries continued to exhibit double-digit expansion. Credit to large industries also registered higher growth. The buoyant growth is majorly driven by higher growth in 'infrastructure', 'all engineering', 'chemicals and chemical products', 'petroleum, coal products and nuclear fuels' and 'textiles'.
- Credit to services sector registered a growth rate of 16.3 per cent y-o-y (11.7 per cent in the corresponding fortnight of the previous year), supported by higher growth in segments such as banks' credit to 'non-banking financial companies' (NBFCs) and 'commercial real estate'.
- Credit to personal loans segment recorded a y-o-y growth of 15.2 per cent, as compared with 11.7 per cent a year ago. 'Housing' segment continued with steady growth, while segments such as 'vehicle loans' and 'loans against gold jewellery' sustained sharp expansion.

**Press Release: 2025-2026/2351**

**Ajit Prasad**  
Deputy General Manager  
(Communications)

<sup>1</sup> Data pertain to the last reporting fortnight of the month, based on sector-wise and industry-wise bank credit (SIBC) return. With effect from December 31, 2025, definition of last reporting fortnight has been changed to the last day of the month under the Banking Laws (Amendment) Act 2025. Accordingly, the y-o-y growth rates from December 2025 onwards are based on end-of-month data for the current year and data for the last reporting fortnight (as per old definition) for the corresponding month of the previous year.

<sup>2</sup> Non-food credit data are based on Section-42 return which covers all scheduled commercial banks (SCBs).
